Comments: Concerning Docket No. 98N-1265 - My wife depends upon a specially formulated prescription for which the most competitive price is available in Wisconsin (we live in Edenton, NC). This proposed bill will eliminate this source and force her to purchase locally at a much higher price. This is an infringement on our right to obtain quality prescription service at a competitive price. This source and prescription, by the way, is approved by Blue Cross/Blue Shield.

Please lend your support to an amendment to remove these onerous provisions concerning compounding pharmacies - let's take steps to benefit the voting public rather than the private interest groups!

Sincerely,
Gordon and Jennifer Fenner
